

Orwak LE TL

Benefits

- Savings on your waste collection
- Tidy premises
- Space saving
- Ability to compact or recycle with one unit or multiple units in a row
- Improves the workplace environment

Features

- Lightweight, strong and hygienic aluminum structure
- Pneumatic or electric versions
- Quiet operation
- Top-loading
- Compacts waste into bags or standard trash bins (65 or 96 gallon)
- Easy and safe to use

Technical specifications

Dimensions TL100

A:	6'7" (electric model)
A:	6'3" (pneumatic model)
B:	38"
C:	32"
D:	46"

Loading aperture

Width:	29"
Depth:	20"

Cycle time

Pneumatic	20 secs.
Electric	40 secs.

RAM force 3,300 lbs. (17 p.s.i.)

Trash Bin size 65/96 gal.

Weight single chamber unit

Total: pneumatic	165 lbs.
electric	190 lbs.

Noise level

Pneumatic	< 68 db (A)
Electric	< 55 db (A)

Pneumactical data

Working pressure: 120 p.s.i.

Protection class IP 55

Operating power

Single Phase 115 V, 60 Hz, 10 A

Orwak LE

Based on an ingenious modular system and made from maintenance-free aluminum. The entire system consists of movable modular components.

You can organize a complete miniature recycling station, within a couple of square yards of floor space, where waste can be processed and conveniently sorted for immediate recycling or disposal. Flexible design allows capacity to be tailored to requirements.

Little Elephant compacts into standard bins, bags and bales. The TL100 is available in both electric or pneumatic versions.

The presshead slides easily over the chambers.

Basic single chamber unit.

One compactor head rolls on a track above four stations.

For more information, contact us or visit our website www.orwak.us
We reserve the right to make changes to specifications without prior notice.
Bale/bag/bin weights are dependent upon material type.
